1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. IN THE CLAIMS:

In claim 18, line 2, after "least" insert --one--.

This amendment corrects an obvious informality in the claims.

3. The following is an examiner's statement of reasons for allowance:

Upon reconsideration, the Examiner notes that applicants' remarks in their specification at page 2, fifth paragraph concerning the disclosure of EP -942 state that cold seal compositions are not described therein, which the Examiner inadvertently overlooked in his last Office action. Furthermore, as stated by applicants in their response, to hold otherwise will be improper hindsight, particularly since the reference compositions exhibit "good adhesion to skin" "wherein the inventive product sticks to itself but exhibits substantially no adhesion to skin, hair and clothes" as is set forth in applicants' independent claim. Stated differently, there is no motivation in the prior art for the adhesive article to have a

bond strength to itself, but also exhibit substantially no bond strength to skin (Response, paragraph bridging pages 11-12).

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
